

# Patio Doors.

**Simply beautiful gliding patio doors.** When you open your Radco Patio Door, you don't have to stop and think about it. You simply do it. With a touch of the hand it glides open. No pushing, no shoving, no man-handling. That's because the Radco Patio Door has an ergonomic European-styled handle and ultra smooth gliding action on tandem ball bearing wheels. It has a heavy duty steel reinforced frame that is surprisingly light on its feet and a lock that latches with your fingertip. And, it looks great with both the Designer Line and the Award Series windows. Radco Patio Doors are perfect whether you're building a new home or renovating. You can even get decorative grids to match the design you've chosen for your windows. The Patio Door by Radco is simple, beautiful, and truly combines the very best in form and function.
